

# BURLEIGH DODDS SERIES IN AGRICULTURAL SCIENCE

## NOW AVAILABLE!

### About the book

This collection considers the importance of accounting for and protecting natural capital and biodiversity in the agri-food sector. The book reviews recent advances in natural capital, biodiversity and extinction accounting and how these methods are being applied in different sectors and regions to improve the sustainability of agri-food supply chains.

### About the editor

**Dr Jill Atkins** is Professor in Accounting at Cardiff Business School and is also a Visiting Professor at the University of the Witwatersrand, South Africa. Her research focuses on corporate governance, responsible investment, sustainability, integrated reporting and extinction accounting. Professor Atkins' leading textbook, *Corporate Governance and Accountability*, is now in its 5th edition. She is also well-known throughout the ESG investment industry and governance area as a thought leader.
